2. WhatsApp: The HOA WhatsApp (+27 83 981 3271) is used to send short messages to notify residents of urgent or important issues, such as roadworks, water disruptions, security issues, controlled burns, approved drone flights, etc.

The HOA's messaging service is only used for sending important HOA notifications to residents. No third-party messages, marketing or advertising are allowed under any circumstances and residents' contact details will never be shared with any other party.

Any replies to the HOA's messages will be seen by the HOA team only.

The HOA does NOT manage the various residents' Facebook groups, which are managed by private individuals.

PEARL VALLEY

Val de Vie Evergreen has made dedicated accommodation available to the ambulance teams during after-hours and standby periods, enabling the ambulance to be available around the clock. Pearl Valley's contribution towards the costs of the service is funded directly by the Pearl Valley HOA.

2. Use the Pearl Valley App: Open the app and press the emergency SOS button.

5. WASTE AND REFUSE COLLECTION

How do I apply for a bin?

It is the homeowner's responsibility to apply for a dustbin once Drakenstein Municipality occupation is issued. Use your stand number as reference and contact +27 21 807 4748. For queries relating to applications for new bins, please contact:

Melissa.Nel@Drakenstein.gov.za or Karen.Fredericks@drakenstein.gov.za,

Does the estate provide for recycling?

The Pearl Valley Estate forms part of the municipal door-to-door recycling service. Each week, on the same day as your refuse removal, your recyclable material (glass, plastic, paper) will

PEARL VALLEY

— HOME OWNERS ASSOCIATION —

be collected. Alternatively, recyclables should be deposited in the designated bins near the Pearl Valley Main Gate.

First time users can collect a bag from the security personnel at the Pearl Valley Main Gate to start off with. Only clear municipal recyclable bags placed next to the refuse bin on day of collection will be collected.

The facility only accepts organic green waste such as grass clippings, leaves, and small branches with a diameter not exceeding 20mm. Tree stumps, large branches, and other large garden debris are not accepted and must be removed from the Estate. Household refuse, or waste other than organic green waste, may not be dumped at the green waste facility.

6. FINANCES & ACCOUNTS

How are the HOA's finances managed?

During the development period, accounting services and financial management for the HOA were provided on contract by Pearl Valley Investments and overseen by the Finance Sub-Committee and Estate Manager. However, now that the development period has officially ended, all HOA financial functions are managed in-house.

Ina Nieuwoudt and Danelle Jansen are responsible for monthly billing of the HOA levy and water accounts and can be reached on Ina.nieuwoudt@pvhoa.co.za or Danelle.jansen@pvhoa.co.za.

7. WATER MANAGEMENT AND BILLING ENQUIRIES

Who manages the water metering?

Please note Pearl Valley and Val de Vie are on different systems for water metering and billing. Voltano is appointed by the HOA to provide the water metering service. Each property has a water meter and an AMR device (automated meter reader) installed by Voltano which exports water usage readings hourly, daily, weekly, and monthly to the Voltano database. The AMR device cannot influence or manipulate your actual water meter in any way and is used purely for monitoring and recording purposes.

PEARL VALLEY

— HOME OWNERS ASSOCIATION —

Who manages the water billing?

All potable water on the Estate is provided by Drakenstein Municipality. No matter where you live, all residents within the Drakenstein Municipal area are charged according to the same water tariffs.

Drakenstein water tariffs work on a sliding scale that goes up significantly when large amounts of water are used.

Voltano is only responsible for providing meter readings and technical support. The HOA is responsible for the water infrastructure inside the Estate and for water billing. The HOA charges for water at exactly the rates determined by Drakenstein, as if you would have been charged directly by Drakenstein.

Residents who are concerned about the accuracy of their water meter or AMR device are welcome to instal their own additional water meter in series to the HOA's meter, as a cross-check mechanism. In practice, the HOA has found the meters and AMR devices installed by Voltano to be consistently accurate.

What charges are added to the water bills?

None! All consumption figures and related charges are clearly detailed in the monthly water invoice. There are no hidden extras, add-ons, or commissions charged.

How do I query my water bills?

Refer any questions or concerns directly to the relevant persons:

- HOA Accounts: debtors@pvhoa.co.za
- Voltano Technical Department: info@voltano.com
- Estate Management: info@pvhoa.co.za

8. ELECTRICITY

Who provides the electricity?

All mains electricity on the Estate is provided by Drakenstein Municipality. The HOA does not manage the reading of meters and is not in any way involved in billing for electricity.

How do I report an electricity problem?

Please contact the Drakenstein 24-hour Complaints Centre at +27 21 807 4665.

How do I query my electricity bill?

Please contact Drakenstein Municipality on their 24/7 contact line +27 21 807 4500.

9. RENOVATIONS AND BUILDING PLANS

Pearl Valley and The Acres have distinct architectural design guidelines and approved paint colours. The applicable guidelines and colour details can be found on the PVHOA website (www.pvhoa.co.za). A sample board displaying the approved paint colours for each development is also available for viewing at the HOA offices.

Any new builds, as well as any changes or alterations to an existing building or structure on an erf, including changes to the external colour scheme, require prior written approval by the HOA (per clause 5.6 of the PVHOA Constitution). Additionally, Council approval is required as the final authority, subsequent to HOA approval, and any building work done without Council approval is entirely at the owners' risk, irrespective if HOA approval has been granted.

The HOA's Design Review Committee meets every second Thursday to review and approve plans submitted on behalf of homeowners for new builds, renovations and alterations.

The committee currently consists of Ivan van Niekerk (trustee and chairman), Louis Phillips (professional architect appointed by the HOA), Andries Roux (Building Control Officer), Greg van Heerden (Estate Manager) and Karen McCarthy (Maintenance Manager).

Homeowners are welcome to contact the HOA directly with any queries in this regard: info@pvhoa.co.za or bco@pvhoa.co.za.

What are the allowed times for my contractors to work?

The set working hours allowed on the Estate are from 07:00 – 18:00, Mondays to Fridays. Contractors must leave the Estate by 18:00. No building activity is permitted on Saturdays, Sundays, or public holidays.

10. SHUTTLE BUS

A shuttle bus is provided for homeowners' household staff to get to and from the main gate. The shuttle bus service is for the use of residents' household staff only, i.e. cleaning staff, nannies, nurses, gardeners, and other residential assistants who are employed by residents to work in their homes and who are enrolled on the Estate's access system.

The shuttle service is available on weekdays from 07:15 to 16:30. It does not run on weekends, on public holidays, or in the period between Christmas and New Year. Buses circulate along designated routes at 30-minute intervals, making stops only at designated bus stops.

PEARL VALLEY

— HOME OWNERS ASSOCIATION —

Employees of businesses, contractors, and service providers such as garden and pool services must be transported by their employers and may not use the shuttle bus service. Use of the shuttle buses is at the passengers' own risk. In the event that the service is delayed, running late, or not available for any period of time, for any reason whatsoever, the HOA will notify residents and users as soon as practically possible, but will not be responsible for providing alternative transport arrangements or liable for any claims whatsoever.

11. APPROVED SERVICE PROVIDERS

The HOA has a list of accredited Estate Agents and Builders available on its website at www.pvhoa.co.za.

All contractors and service companies (plumbers, electricians, painters, garden services, pool services, etc.) are required to register and enrol their staff with the Security department.

I want to use my own service provider who is not enrolled on the Estate access control system – what do I do?

The processes for evaluating and registering service providers are stringent because these individuals often work in homes and stands when residents are not present. Importantly, no resident may bring an unregistered service provider into the Estate in their own vehicle.

Exceptions may be made by the Security Team on a case-by-case basis, particularly in emergencies. Residents can email security@valdevie.co.za during office hours or contact the Duty Manager at the Security Control Room at +27 21 863 6101/03 for assistance.

In practice the HOA has found the security team very willing to assist in such exceptions, provided they receive prior notice, with suitable reasons for the request, and a copy of the service provider's identity document is provided.

12. POST OFFICE

How and when do I obtain my post box keys?

Please email info@pvhoa.co.za to request post box keys. For lost keys and any other post box-related enquiries, please use the same email address.

What is my postal address?

Your erf number (e.g. PVG195), Pearl Valley Golf and Country Estate, Paarl, 7646.

Acres residents should use the following format:
