BLOCKED SEWERAGE PIPES

The Estate's Maintenance Team has reported an increase in sewer line blockages, caused by the flushing of solid materials, disposable nappies, paper towels, and wet wipes (including biodegradable ones) into the sewerage system. These materials are causing blockages in the main line and at the sewage pumps, which then run the risk of burning out.

We ask that residents kindly remind family members and domestic staff not to flush any such materials into the sewerage system.

Your co-operation in this regard will be highly appreciated.
