

INVASIVE PLANT SPECIES

The HOA has noted the presence of various invasive plant species, particularly Black Wattle and Port Jacksons, on a number of properties and vacant erven in the Estate.

As set out in the Estate's Landscape Design Manual, no invasive alien plants, trees, shrubs or grasses are permitted within the Estate.

The HOA has the right to disallow plant species on the basis of water requirements being too high, species prone to pests and diseases, species inappropriate for the weather conditions, and species that negatively impact the overall landscape design at Pearl Valley.

We request that homeowners make the necessary arrangements to remove any invasive plants from their gardens and unoccupied plots.

The Estate's Compliance Officer, Jacobus Petzer, will be pleased to meet with any resident or designated contractor to discuss removal options. Jacobus can be contacted directly at compliance@pvhoa.co.za.

PEARL VALLEY GOLF SHOP

CSB GOLF EVOLUTION

Walking an average course for a round of golf can be between five to seven kilometres. If you walk 18 holes three to five times a week, you'll get an optimal amount of endurance exercise for your heart. If you pull or carry your clubs, you'll burn even more calories each round and benefit even more.

The *CSB Golf Evolution* is an additional service offered by the *Corné Steenkamp Biokineticists*. Get in touch by contacting them directly at:

☎ + 27 76 408 7608
